TTSSorcery Extension: how it is put together

TTSSorcery is an extension that can generate TTS with multiple speakers and emotions all in one message. Since it uses Sorcery's method of executing actions the moment of the stre.

sketched from the files

TTSSorcery Extension: the run, step by step

If a step fails, the honest run says so and stops.

traced, not guessed. GK

Product map: what TTSSorcery Extension is for

WHAT IT IS

TTSSorcery is an extension that can generate TTS with multiple speakers and emotions all in one message. Since it uses Sorcery's method of executing actions the moment of the stre.

WHAT GOES IN

The files at the top of the tree: index.js, style.css, README.md.

WHAT COMES OUT

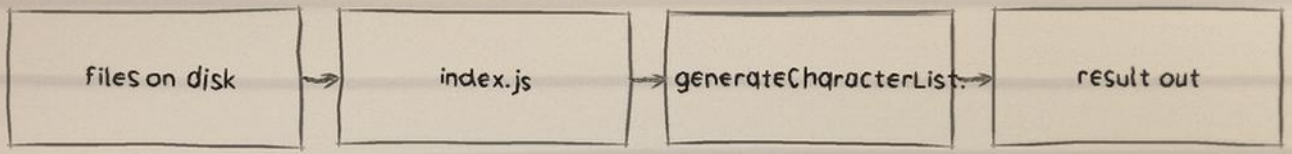

What the top files produce when they run or get read. Nothing else is promised.

WHERE IT STOPS

No service behind it, no account, no upload. If a path is untested, VISUAL.md says so.

mapped by hand, GK

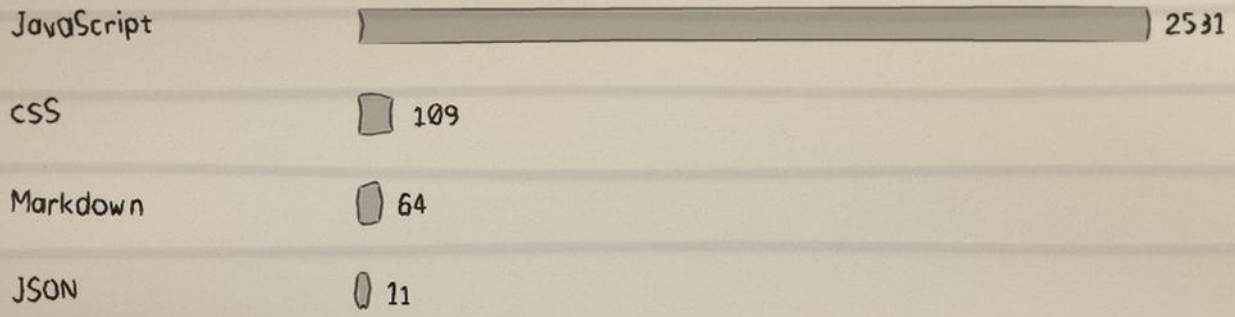

TTSSorcery Extension: data flow, in one direction

One direction. Anything the code does not do is not drawn.

TTSSorcery Extension in numbers, counted 2026-10-30

Counted from the local snapshot of this repo. Method for every number: VISUAL.md.

5 files in the tree.
2 commits, first 2025-03-27, last 2025-03-27, from the local git log.
No test files by name in this snapshot.

counted and drawn, GK

TTSSorcery Extension: schematic of the apparatus

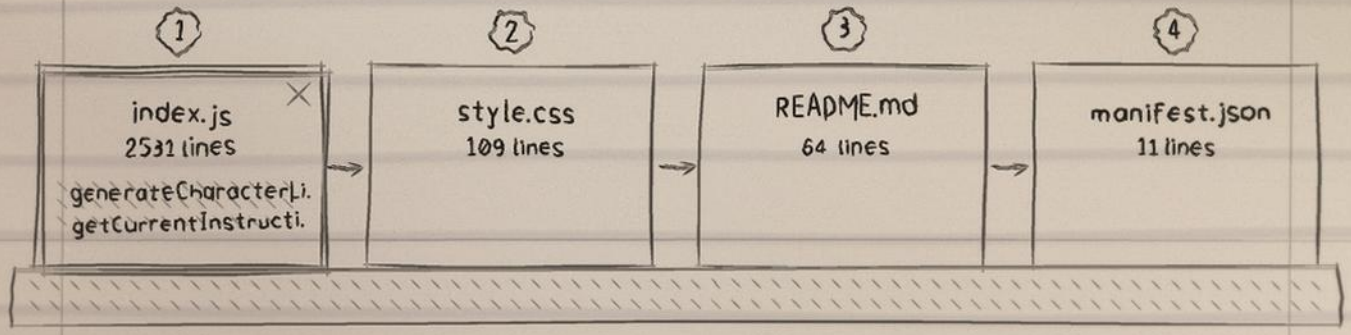

the system as a machine: parts, flow, and measurements

construction lines left in, as drawn

parts list

1. index.js
2. style.css
3. README.md
4. manifest.json

in flow order, first to last

base plate: the repo itself, sectioned

span: 5 files, 2715 lines counted

turns of the crank so far: 2 commits, 2025-03-27 to 2025-03-27

measured and sketched, GK
